A day of action….. We explore and identify a diverse range of living, non-living, and once-living aspects of their surroundings.

Visit the bird hide and discover the biodiversity of animals and plants along the way. Learn about the indigenous importance of living things in this unique environment. We spot animals and try to mimic their movement.

**Can you guess what I am?**

On the beach hear the Gubbi Gubbi traditional story of the Glasshouse Mountains and explore the beach ecosystem.

Back at the Centre students rotate through our mini museum of artefacts. **Can you identify the objects?** It’s important to know how different cultures group objects and living things. How did the traditional owners view and group different elements of this county?

**Dare to be Aware!**

*This program can cater for 2 classes per day.*
